## Experience

### Engineering Manager

Aug 2023 - Aug 2024

Cocomore AG / Frankfurt am Main, Seville

Marketing

Working for Samsung DE as Engineering Manager. Leading, mentoring and managing a team of 5 software engineers. Conducting regular performance reviews, 1:1's, providing feedback and playing a key role in the product development process.

Translating business requirements into technical specifications. Collaborating with stakeholders to define and prioritize product features and requirements.

Developing and maintaining a product roadmap that aligns with business goals and customer needs. Creating and managing the product backlogs and reporting to different stakeholders.

### Engineering Manager

Nov 2022 - Jul 2023

LeoVegas Group / Stockholm, Málaga

Gambling

Team Lead for a team of Engineers and QA's (on site and remotely, 25 people). Ensuring that the team delivers high-quality products and solutions by following the best practices, e.g. Testing, observability, solid principles, clean code. Mentoring and guiding the professional and technical development of the teams.

Working with product managers to maintain a prioritized backlog and create short-term and long-term goals (also roadmaps & MPVs).

### Web Performance Manager

Mar 2021 - Oct 2022

Lunik: Explorers at Work / Málaga

Gambling

On charge of a team of 2 analysts, responsible for getting the best performance in all our systems (more than 10 websites & infrastructure) on an infrastructure level and sw architecture.

Assigning tasks, creating user stories and removing impediments in order to get the best performance in our systems. Expert in system monitoring and data analysis using Graphana, Synthetic monitor, Graphite and sitespeed.io among others were my tools on mi daily-basis.
